

August Pre-K

Skill Focus

- Writes words using inventive spelling
- Creates original patterns for 4 objects
- Identifies and explores common community helpers
- Draws complex pictures with various art materials
- Demonstrates control of emotions

Home Enrichment

Estimation

Estimate the weight of a household object. Ask your child to guess the weight of the family cat, a dictionary, a glass of water. Then show her how to use a scale to find out the real weight. Have her estimate her own weight, and that of other family members. While her guesses may be way off, you're introducing her to the concepts of weight and estimating.
