

Pre-K

Skill Focus

- Write words using inventive spelling
- Recognizes numerals 1-50
- Uses non-standard measurement to explore length
- Participates in science experiments and makes predictions

Home Enrichment

Shoe Trail

Materials

Empty laundry basket

Shoes

Directions

Give your child a laundry basket and have her fill it with shoes.

Make a trail of shoes around the house, lining them up heel to toe.

Follow the trail, counting as you go.

Keep a list, and have your child count how many shoes each person has, or how many shoes of each color there are, or how many shoes there are in total.

Help your child put the shoes away when she is done.
