- Responds to 1 step directions
- Turns pages in book
- Pushes and pulls toys while walking
- Puts items into a container
- Stops in response to no
- Bobs or rocks body in response to music
- Experiments with finger paint

Home Enrichment

Sand and water

A bucket of water, a basin of sand, and a few cups and scoops can keep your child mesmerized for hours – and all along, he's learning about volume and texture, liquids and solids. Plus, it's engaging, so he'll develop persistence as he deals calmly with the fact that the water he's pouring into his carefully dug hole keeps disappearing.

Parent tip: Try open-ended questions to engage your child. ("Those sticks you added are standing in the sand all by themselves. I wonder why?")

Reminders & Announcements

Please remember to bring sunscreen for your child and sign the sunscreen waiver form.

Please submit vacation requests 2 weeks prior to vacation for approval. To qualify for vacation credit (5 days to be used during the same week), your child must have been enrolled a minimum of 6 months. Vacation policy is 5 days per academic year. Vacation does not roll over.
