

Classroom Corner

Beginner B

Ms. Carolyn & Ms. Celeste

Wow, the months are flying by! In November we made friendship soup; it was the highlight of our month! The teachers were surprised by how many children wanted to eat the soup after helping make it. We discovered that it is a great way to get them to eat healthy foods and we will work to have them help more with meals. This month we look forward to learning new skill such as exploring holiday music from different cultures. We will also begin working on mixing colors! Please remember to label all items coming to school, particularly jackets. Also, please remember to take home wet clothing at the end of the day. This will help keep things sanitary and clean.

Intermediates

Ms. Daleana & Ms. Kristi

We had a wonderful time celebrating Thanksgiving with our families. Thank you for supporting our festivities with such yummy treats! It really is the most wonderful time of the year. This year we would like to invite into the classroom to share specific activities that your family engages in during the holiday season. This month will be learning about Christmas Around the World and ways that different countries celebrate. Please note that we have several special events scheduled this month. Please join us for breakfast with Santa in December 12th. We will have our Cookies & Carols class party on December 18th. We would like to wish two of our friends a very happy birthday. Happy birthday Holden and Sela!

Pre-K

Ms. Angie & Ms. Diane

The Pre-K classroom is very excited to have Ms. Diane join our room! We would like to send a special 'thank you' to our families for helping contribute to a wonderful Thanksgiving Friendship Feast. This month we learn about how different countries celebrate Christmas and will have several baking projects to go all with our unit. We are excited to jump on the Polar Express and head to the North Pole. We will also explore a Winter Wonderland and make fun paper snowflakes! We will look forward to ringing in the New Year with musical instrument fun. Please join our class party on Friday, December 18th for cookies and hot cocoa. Bring your camera to snap pictures of our mini holiday performance!

Pre-K 2

Ms. Judy & Ms. Desiree

In November we gave thanks for our family, friends, food, school and pets. We learned how eating healthy helps our bodies stay healthy and about Fall leaves changing colors and falling from trees. We would like to thank all of you for contributing to our Friendship Soup and for those that joined our Thanksgiving Feast. December finds us anxiously awaiting the winter weather and Christmas time! The students will decorate their own trees, build their own snowmen and will work hard on creating their parent gifts. We also plan to learn about other countries and how they celebrate the holidays. We look forward to ringing in the New Year! We will continue working with the students on addition and subtraction and counting and recognizing numbers 1-100. Students will continue to work on forming good writing habits and with letters. Students love our new writing center and this designated space allows them to focus on the assignments in a quiet space. With the holiday season upon us we will be identifying and comparing family cultures, customs and traditions.
