

Lección 5 Home Connections

Vamos a contar

Master **125**
Let's Count Together

Nombre _____

- Teach your parents or guardians the numbers 11–20 in Spanish. Read each number aloud and have your parents or guardians say it after you:

11 once

12 doce

13 trece

14 catorce

15 quince

16 dieciséis

17 diecisiete

18 dieciocho

19 diecinueve

20 veinte

Make index cards for the numbers 11–20. Write the number on one side and the Spanish word for the number on the other side. Put the cards in order and hold them up one by one. Ask your parents or guardians to say the word for the number. Then have your parents or guardians hold up the cards one by one for you to say the number.

Teach your parents or guardians how to ask and answer this question. Hold up one card and show your parents or guardians the number. Ask the question and answer it yourself first. Then hold up another card and ask your parents or guardians the question. Congratulate them if they can answer it!

¿Qué número es?

Es el ____.

What number is it?

It's ____.

Now add this set of cards to the one you made for the numbers 1–10 to play a number card game. Shuffle all of the cards and place them number-side up on a table. Take turns with your parents or guardians picking up a card from the top of the pile and asking the question *¿Qué número es?* Whoever answers the question correctly using *Es el ____* gets to keep the card. Continue until all twenty cards have been picked up. Whoever has the most cards at the end wins!
