

Intermediate A February 2017 Newsletter

At Merryhill School, we provide a positive and nurturing learning environment where children are prepared for their future through friendship, teacher guidance and a thoughtful and engaging curriculum."

This Month We are Learning...

This month your child will be learning to count to 30, recognize numbers 1-10 and identify animals and their habitats. For Spanish students will be listening to the Links to Learning CD while learning to say the colors, shapes, the numbers 1-10 and name some pets like: el gato (the cat), el perro (the dog), el pez (the fish) and (the bird) el pajarito and the sounds these animals make in Spanish.

Don't Forget!

- February 20th Closed for Professional Development Day
- February 14th Valentine Exchange
- Early Bird registration
- February 24th Tooth Fairy

Try This At Home...

Name an animal and ask your child where that animal lives. "Where do lions live?" or "Where do fish live?" Reverse the question by asking "What animals live in the zoo?" Or "What animal lives in the ocean?"

Provide your child with a stack of index cards and mini stickers. Help your child write the numbers or to trace them from 1 to 10 on the left half of the cards. Ask your child to place the correct number of stickers to the right side of each card.
