# A Place to Grow:

## *Where learning continues beyond the school day*

Our Before & After School Programs offer students enriching opportunities for discovery and exploration before and after the normal school day hours. These programs provide numerous options for fun while also reinforcing the essential lessons and values taught throughout the school day.

### Extended Day (B&A)

Our Extended Day program, also known as Before and After Care or B&A, allows busy working families the flexibility to drop off before the school day starts and pick up after the normal dismissal time. Our program is organized into several areas that are designed to provide your child with opportunities to learn valuable life skills, and to reinforce the skills they're learning during the school day, while providing plenty of time for fun with friends.

#### **Program Details:**

- Before School: 7:00 - 8:00AM
- After School: 4:00 - 6:00PM
- Dedicated and specially trained staff members with experience in working with children.
- Facilities include outdoor spaces, Gym, Commons, and classrooms.

### Clubs & Enrichment

Our Clubs and Enrichment Programs are great ways for your child to expand on their interests or pursue new passions. These can be added in conjunction with our Extended Day Program or independently. This program offers families an opportunity to enroll their student in one or more days of after school activities without leaving the convenience of our campus.

#### **Program Details:**

- Hours: Varies by Club & Enrichment
- Dedicated and specially trained staff members in specialty area.
- Facilities include outdoor spaces, Gym, classrooms, and Specialty rooms including the M2Studio and Media Center. Sports clubs and teams may utilize local park/field spaces.

**Extended Day**

# Extended Day

*Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills and to reinforce the skills they're learning during the school day.*

Students explore the exciting world of science, technology, engineering, art and math (STEAM) through building projects, experiments, and design challenges. Sharing ideas, asking questions, and making predictions are encouraged!

Robust outdoor free play and structured games help students learn sportsmanship and develop their physical strength. Students learn critical thinking and problem solving by participating in board games and team challenges with their peers. The “Commons Lounge” is designed for students in 5th-8th grades, and consists of table top/board games, limited video games, card games, and more. While students still have the freedom to talk with friends, read, and work on homework, the “Commons Lounge” encourages increased socialization and interaction among our older students.

Students in JrK-4th grades have opportunities to express themselves by participating in hands-on visual arts, including drawing, painting, and more. Activities are designed with student age in mind, and an emphasis is placed on materials explorations.

Social and emotional growth is nurtured through student and teacher led activities that promote a feeling of community and belonging. Students learn through open-ended activities that give them a chance to apply problem-solving skills and collaborate with friends.

At Midtown, all K-8 students are provided study hall regardless of enrollment in the extended day program. During study hall, we provide students a quiet place to work on homework, read, journal, or seek academic support from peers and teachers. Students in K-5th grades have study hall from 3:00-3:45PM. Middle School students have study hall from 2:05-3:35PM on a rotating block schedule.

### Global Tour, Jr.

Experience a journey across the globe exploring various genres of world dance: Salsa, Samba, Cumbia and other Afro-latin dances from Latin America; Bollywood and classical dances from India; Middle Eastern rhythms; Mexican folkloric; Flamenco from Spain; Hula and other Polynesian dances; and West African folk and modern dances. This is a fun and energetic glance at today's multicultural society! We'll learn about the parts of the world in which these dances originate, exploring their history and customs and even learning some native words in their languages. An invitation to honor diversity and appreciate the stories that make us unique, as we celebrate the emotions and experiences that bring us together. There will be optional performance opportunities, with colorful, vibrant costumes (for an additional charge).

**Grades:** 1st - 5th, 20 students max.

**Weeks Offered:** 9/11 - 11/13 (10 classes)

**Time:** Tuesdays, 3:45 - 4:30PM

**Cost:** \$135
